USING DETERGENT

- Put pressure washer detergent in detergent tank.
- Install blue or black soap nozzle.
- Squeeze trigger and wait approx. 1 minute for soap.

SPRAY TIP	SPRAY TIP APPLICATION
	Red - Stream tip (0°) <ul style="list-style-type: none"> ■ The red 0 degree tip provides a straight line of spray. It provides the highest amount of pressure. It is best used for removing hard, stuck-on grime or dirt.
	Green - Narrow fan tip (25°) <ul style="list-style-type: none"> ■ The green pressure washer tip provides high versatility with its 25 degree angle tip. Referred to as the washing tip, because it provides adequate pressure to remove dirt from surfaces, but is designed to not damage many surfaces. This pressure washer tip is designed for "sweeping" foliage or debris given its wide angle. This tip is versatile due to its wide area of cleaning and strong pressure application.
	White - Wide fan tip (40°) <ul style="list-style-type: none"> ■ The white 40 degree tip, referred to as the "fan" tip creates the widest area of cleaning with relatively low pressure. This pressure washer tip is best used for light cleaning on wood decks and other soft or delicate surfaces.
	Black - Soap spray tip <ul style="list-style-type: none"> ■ The black soap spray tip, is used for soap application. Soap is applied under low pressure high volume for optimum performance. Soap cannot be applied under high pressure with this machine.
	Turbo Nozzle Tip <ul style="list-style-type: none"> ■ The nozzle rotates in a zero to 15 degree spray pattern in a circular motion to break down tough dirt and grime. The spray pattern can cover area of 4 to 8 inches wide, depending on a distance between the tip and the surface being cleaned.

Set-up

- Connect garden hose to pressure washer water intake.
- Assemble pressure washer gun to spray wand.
- Connect desired pressure tip.
- Insert high pressure hose into trigger handle.
- Connect the high pressure hose to the water outlet connector.
- Turn on water at outlet.
- Run water hose for 30 seconds with the motor in OFF position. This helps drain air from the tank and lines.
- Connect power cord to wall outlet. Extension cord not recommended.
- Turn on Pressure Washer. **IMPORTANT:** Ensure water outlet is On before turning power On to avoid damage to the pump.

NOTE:

AUTO ON/OFF SWITCH: This Pressure washer is equipped with an Auto Start/Stop feature. To operate: Turn the power switch to the On (I) position. Pump will pressurize and shut down immediately. Once the trigger of the gun is depressed the unit will turn on. Unit will shut off and be in standby mode when trigger is released.
